are makers of highly efficient done models and toys of all kind in different scales. Some of the leading lines are shortly described inside. Have a look and ask for samples and specified offers.

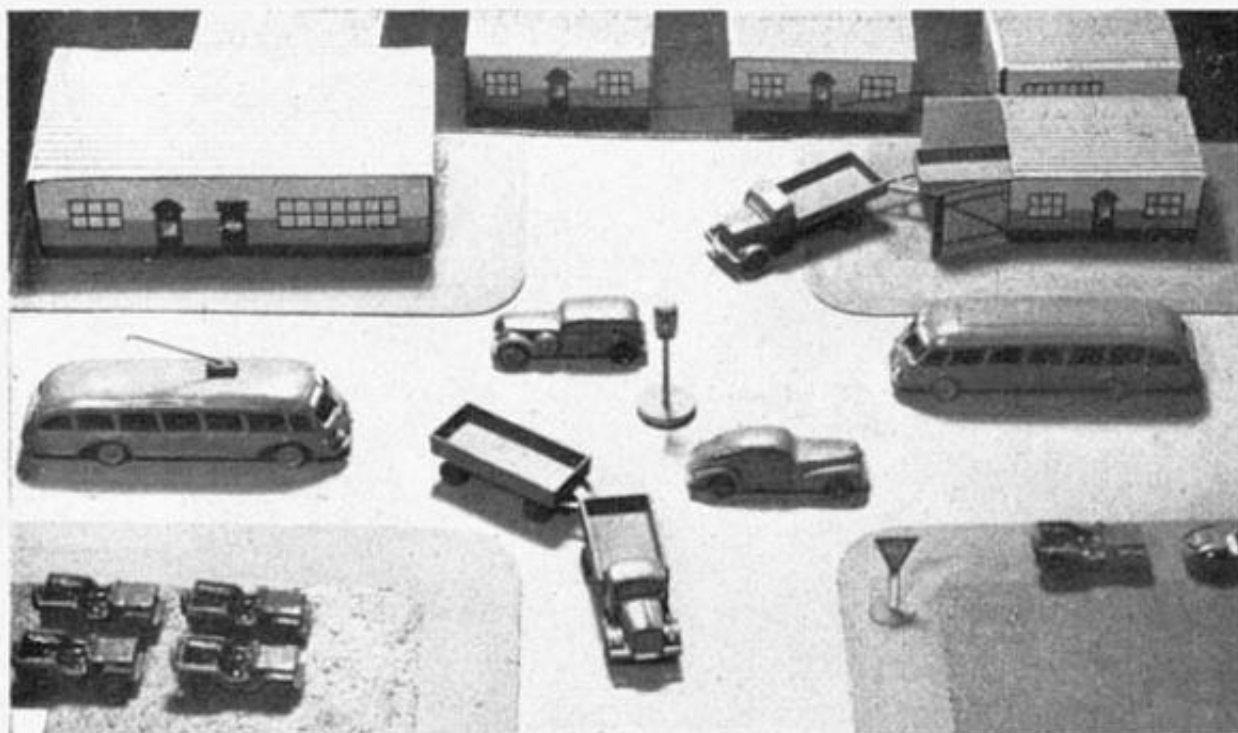

Viking-Ship-Models, Harbour sets and accessories are in the scale of 1 : 1250. Exact replicas of all seagoing vessels and the details of harbour life made these models an extraordinary successful hobby for many years. Each model is an accurate scale representation in both shape and colouring of the type or individual ship it is intended to portray.

Boys from 7 to 70 from all seagoing nations want these models in series to have the romance of the sea and shipping at home. Our success lies in the fact that not the single model but the whole serie and the accessories are wanted by the customers.

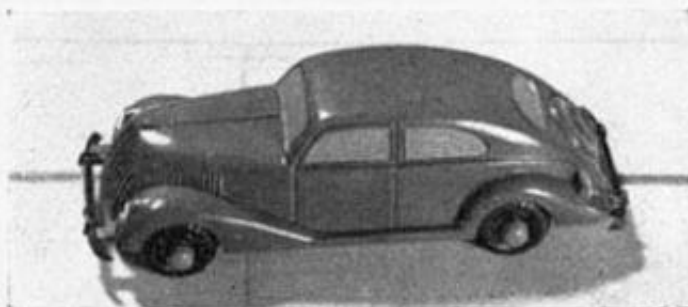

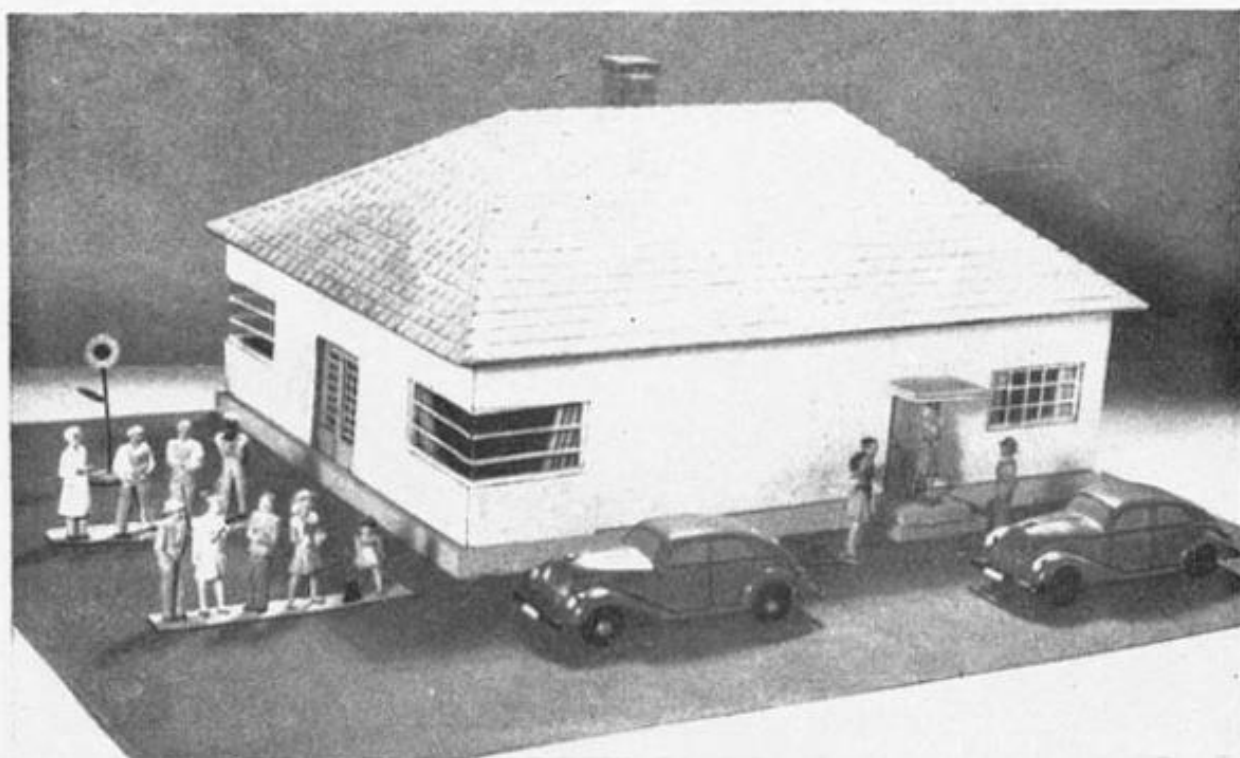

Viking Traffic models are miniatures in the scale of 1:100. Vehicles of all kind, traffic signs, street plans a. s. o. give the possibility not only of a boys toy but for education in traffic- and security-customs on the table in schools, police stations and at home. Cyklist, horse-drawn vehicles, children, policeman a. s. o. are just in the making.

Like in the Viking-ship-serie the success is guaranteed not only by the exact and careful making of every model, but the selling of the whole serie step by step to the customer.

Viking-Life-Models are a brand-new serie in the scale of 1 : 50. Cars, houses, people, boats, furniture are shown in these copies of human life in the american standard. More than a toy. Daddy, granny, junior and sister will enjoy themselves with these models as well as architects. Real life in miniature, that is the head line of this serie, the astonishing impression of which cannot be described.
